Subject: [SPAM-Sender] Re: Smoky Fish population size class data

---

Hi Jennifer,

Thank you for the e-mail and any assistance you can provide. I'm looking for the raw data behind the reports entitled: Aquatic Resources and Fisheries Monitoring Report, Panels F and G, Smoky Canyon Mine, Prepared for Simplot by Formation Environmental for years 2009, 2010, 2011, 2014 and 2017.

I'm looking for the raw data that they gathered for these reports, but which isn't included in the reports. We would like to see the data analyzed by age class/size class to get a better idea of what the high selenium concentrations are doing to the population - since selenium primarily effects reproduction.

Thanks  
Bonnie

Hi Bonnie,  
Lynne forwarded me your request for size class data of trout population monitoring at Smoky Canyon, completed by Simplot. Can you provide me with the specific document, sampling years, or QAPP related to the data you are looking for to aid in referencing/searching?  
Thanks,  
Jennifer
